- Solar charged • Motion sensor turns light on
- Can be mounted with the included spike or the Nordlux base unit • Long LED lifespan (25,000 hours)

The solar-powered Justina series by Danish design duo Says Who has a round, classic design with a large light surface that lights up automatically when the sensor detects motion. Perfect for placing along the driveway or a path to create visibility when you or your guests approach your home. Easy installation with no cables needed using the included spike or the Nordlux base unit.
