

## CONNECTED HOME

# Live life smarter

Connected Home transforms your place into a sophisticated network. It's more than just energy efficiency – it's your ticket to a world brimming with comfort and state-of-the-art technology, seamlessly integrated into your daily routine. Explore the endless variety of options to personalize and optimize every aspect of your home – intuitively, swiftly, effortlessly, all through your smartphone or tablet.

### One app to rule them all!

Take command of your home with ease! Our Connected Home app transforms your smartphone or tablet into a powerful hub of simplicity. Pair, configure, and control all your devices with just a tap – no fuss, all intuitive. Embrace the future with added functions and effortless comfort, making home the smartest place to be!

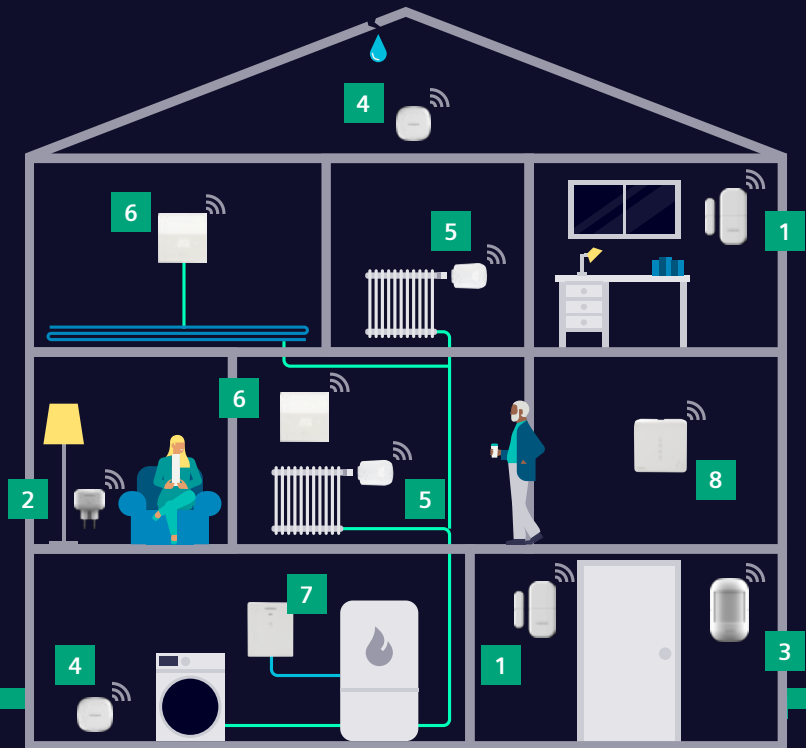

# SIEMENS

# Smart starts with Connected Home

## Carefully designed, sustainable portfolio

Our Connected Home ecosystem combines comfort with energy savings, and makes your home smarter. With the Zigbee3.0 standard, it's also future-proof – and it can adapt and connect to more and more smart devices as your home's ecosystem expands.

This means that the technology not only contributes to lower, more sustainable energy consumption, but is itself sustainable.

### 1. Window contact:

Your reliable partner for energy efficiency and security – detects when windows or doors are opened and adjusts your heating or cooling settings.

### 2. Smart plug:

Combines tradition with smart home: it turns any traditional electrical appliance into a smart marvel.

### 3. Motion detector:

Sensitivity meets intelligence – and registers the slightest movement to efficiently control your home's lighting and energy system.

### 4. Water leak detector:

Fast response, minimized risk: Alerts you in seconds as soon as the first signs of water leakage are detected.

### 5. Radiator actuator:

Customized warmth reimagined: Offers personalized heating zones, adapts to your schedule, and trims energy costs with a swift retrofit solution.

### 6. Thermostat:

Comfort redefined: Adjusts your home's climate with adaptive precision for energy savings and remote, welcoming warmth.

### 7. Receiver:

Smart home synergy: Enhances device connectivity for streamlined boiler function and cost-effective, cozy home environments.

### 8. Hub:

Command center refined: Controls up to 40 devices, orchestrates custom scenes, and modifies settings from afar for an effortlessly smart connected household.
