Flux - Controls and Sensors

NEW ROOM SENSORS AND FOUR-POSITION SWITCH FOR FLUX

Would you like to monitor air quality even more accurately? Or do you prefer physical controls?
Good news: Flux is introducing a new range of room sensors and control elements.
This allows you to get even more comfort out of your ventilation system. In addition, extra room sensors often have a positive impact on energy standards such as E-level, BENG...

The room sensors and controls are fully compatible with every Flux model (Flat, Wall, and Wall Compact) as well as every version (+, GO, and ERV). It is a requirement that the Flux has software version 2.8.2 or higher.
